SUMMARY

As a dedicated Computer Science and Data Analytics student, I am committed to leveraging my programming skills to solve complex problems and develop innovative solutions. With hands-on experience in machine learning and web development, I continuously seek opportunities for growth and learning in the tech field.

EDUCATION

Bachelor of Science (Hons.)

Indian Institute of Technology (IIT)

2023 - 2027 Bihta, Patna Cpi: 8.66

12th Grade

Jai Hind Public School

2021 - 2022 Vigyan Nagar, Bodhgaya, Gaya

10th Grade

Jai Hind Public School

2020 - 2020 Shastri Nagar, Gaya

PROJECTS

Movie Recommendation System

A project to implement a system that recommends movies based on user input.

- Developed a recommendation system using Python and machine learning algorithms to suggest movies based on user preferences.
- Applied data analysis techniques to process user ratings and reviews to generate personalized movie recommendations.

Current Web Development Project

A web development project focused on building an interactive application.

- Creating a web application for a friend that involves dynamic content management and interactive user interfaces.
- Tools being used: HTML, CSS, JavaScript, and Flask.

STRENGTHS

Soft Skills

Skills in communication, time management, and problem-solving.

Technical Skills

Proficiency in Python, C++, Data Structures and Algorithms (DSA), as well as web development tools.

SKILLS

Algorithms

CSS

Data Structures

data structures and algorithms

HTML

Javascript

Python

PASSIONS

Programming

I am passionate about giving my best in programming. I thrive on solving challenging problems, working on new technologies, and learning continuously.
